

## Enhanced Flexo Print (Central Impression)

Make your mailing a success by delivering powerful graphics more cost effectively than ever before!

FEATURES	BENEFITS
Versatility of colour printing on inside and outside	➔ Capable of printing attention grabbing multi-colour graphics
Cost effective alternative to jet or flat sheet lithographic printing	➔ Saves you money without giving up quality (brighter solids & finer screens)
Advanced "Tetraflex" printing system	➔ High quality, tight register printing
Fully automated ink dispensing unit	➔ Ensures exact matching and ink quality to meet your specific requirements
Reduced make-ready time & more run time	➔ Cost effective colour at high running speeds
Rofalex window cutting system	➔ Multiple window size & style capability at high speed
Computer driven semi-automatic size control	➔ Multi-featured envelope product

SupremeX Inc. is the only envelope manufacturer in Canada with Enhanced C.I. Flexo capability using 4 Central Impression Flexographic print units.
